(Internships in  
your church...)

# WHAT ARE THE OPTIONS?

## Accredited internships (Australia only)

We offer two fully accredited courses on an online basis; a Certificate IV + Diploma in Christian Ministry and Theology. If you would like your interns to work towards a qualification, they can apply to become online students of C3 College that study together in a group setting at your church. We believe this provides a richer learning experience for online students, to be able to study in a group environment and with the support of their church.

## Details

Students will typically begin with our Certificate IV (unless they have completed prior study). There are 12 subjects, as well as the Internship unit which involves serving in a local church, and students will be required to complete assessments to achieve competency. Full-time study is equal to 3 subjects per term and will take one year to complete. There are also part-time study options, in which students undertake 1-2 subjects per term and complete the course over a longer time frame.

For more information regarding accredited online study including timetables + subjects, please [click here](#).

## Non-Accredited internships

You may like to run internships in your church where you are training students and future leaders, without the qualifications. Our non-accredited resources use the same subjects as our accredited options, but without the assessments or support of our online tutor. There is also added flexibility with this option, as you don't need to follow our accredited term timetables; you can choose which subjects you do, and when you run them.

### Details

Non-accredited internships have the flexibility to run in any way that suits your church, however the students will not be working towards a qualification. You can create your own timetable for when you run subjects and you can choose which subjects you would like them to complete. We will provide the necessary training resources e.g. video lectures and manuals. For more information on non-accredited study, please [click here](#).

### Cost

Head to our [website](#) for all fee information.

Please note: It is completely up to you as to what you charge your students for their non-accredited internship as we will not invoice them individually. We would suggest that the amount you charge your students will cover the costs your church has made for purchasing subjects + resources, etc.

## Want more information?

You can't know everything about C3 College in 9 pages, we get that. So we'd recommend heading to our website where you can get all the knowledge you need to make an informed decision.
